The Celebrity Flop

Celebrity Mentions Correlate with 74% Lower Engagement Efficiency

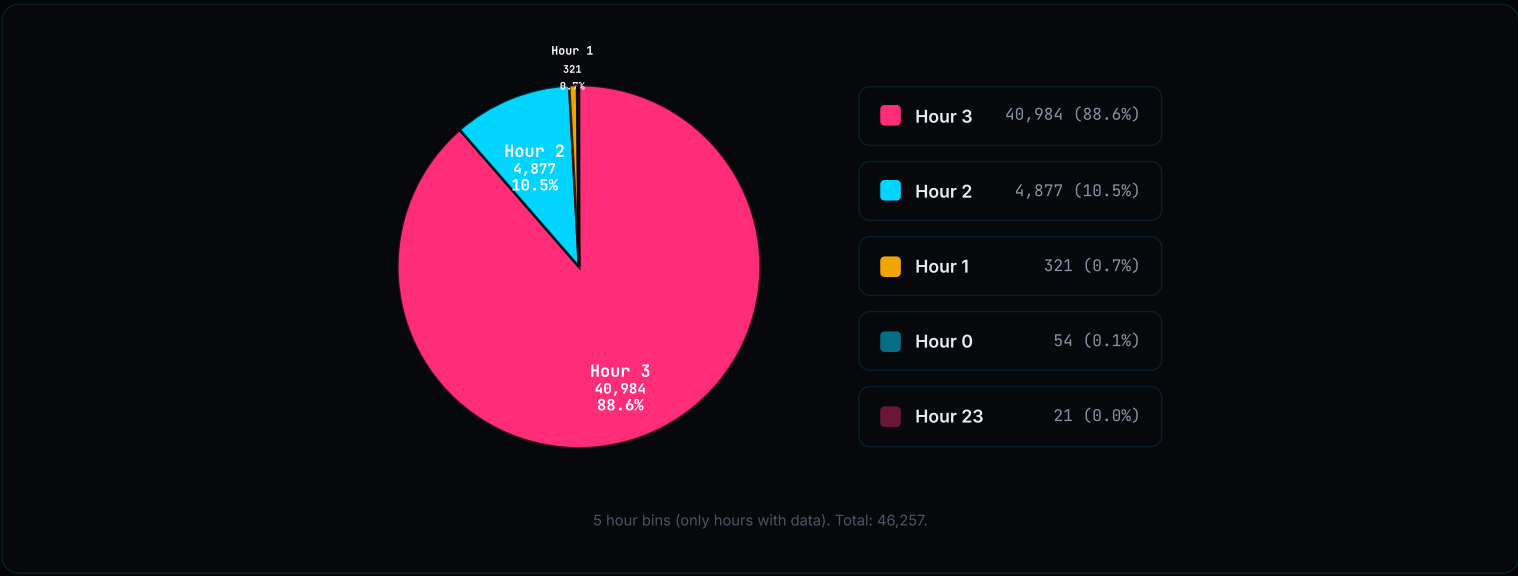

68% of all tweets are retweets. A single viral original can generate hundreds of retweet entries carrying its engagement metrics.

TWEET TIMING

Temporal Signature

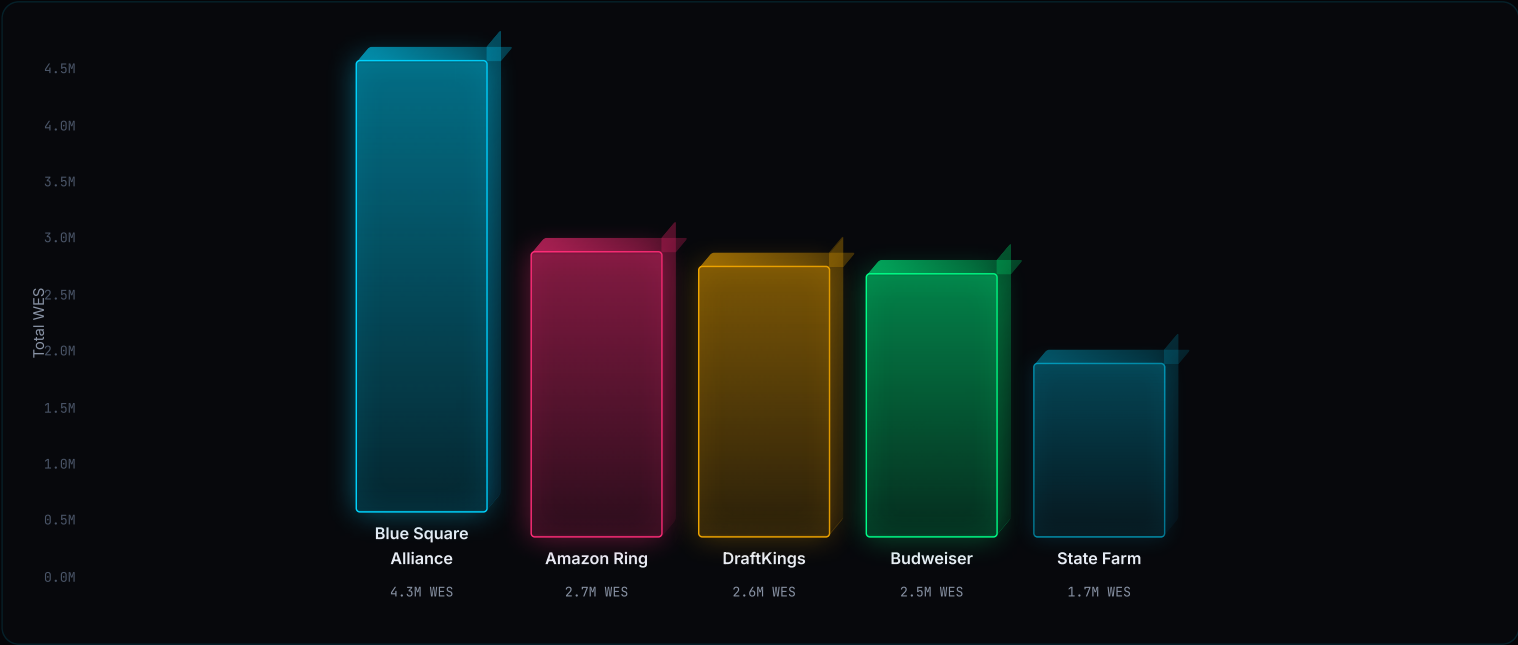

88.6% of All Tweets Concentrated in a Single Hour

🕒 A brand has, at most, a 5-minute window to capture the conversation before the next ad displaces it entirely.

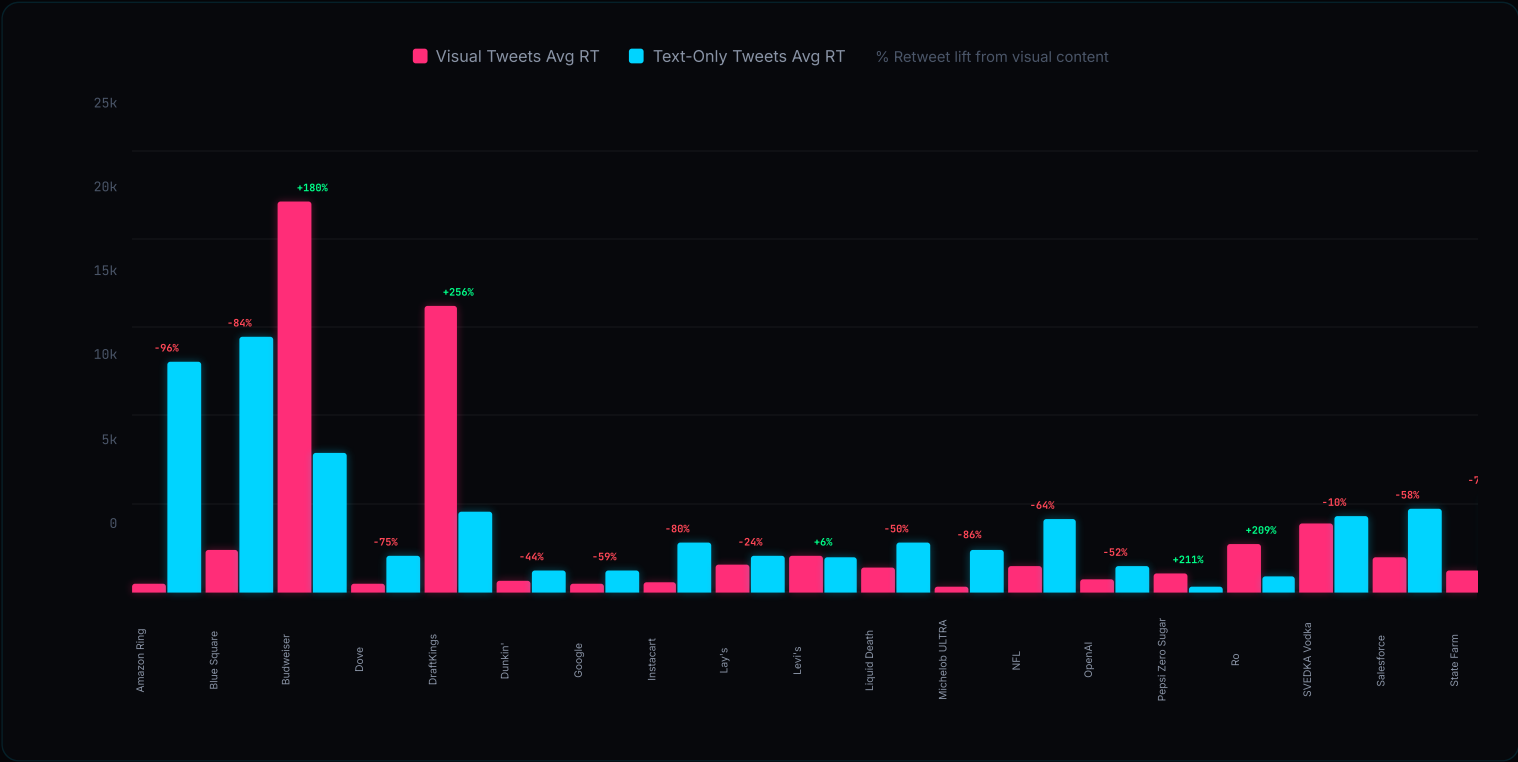

Complete Efficiency Rankings

Top 5 Brands by Total Weighted Engagement Score

The Counter-Intuitive Visual Effect

Visuals Hurt Retweets for 16 of 20 Brands

Narrative Ownership Taxonomy

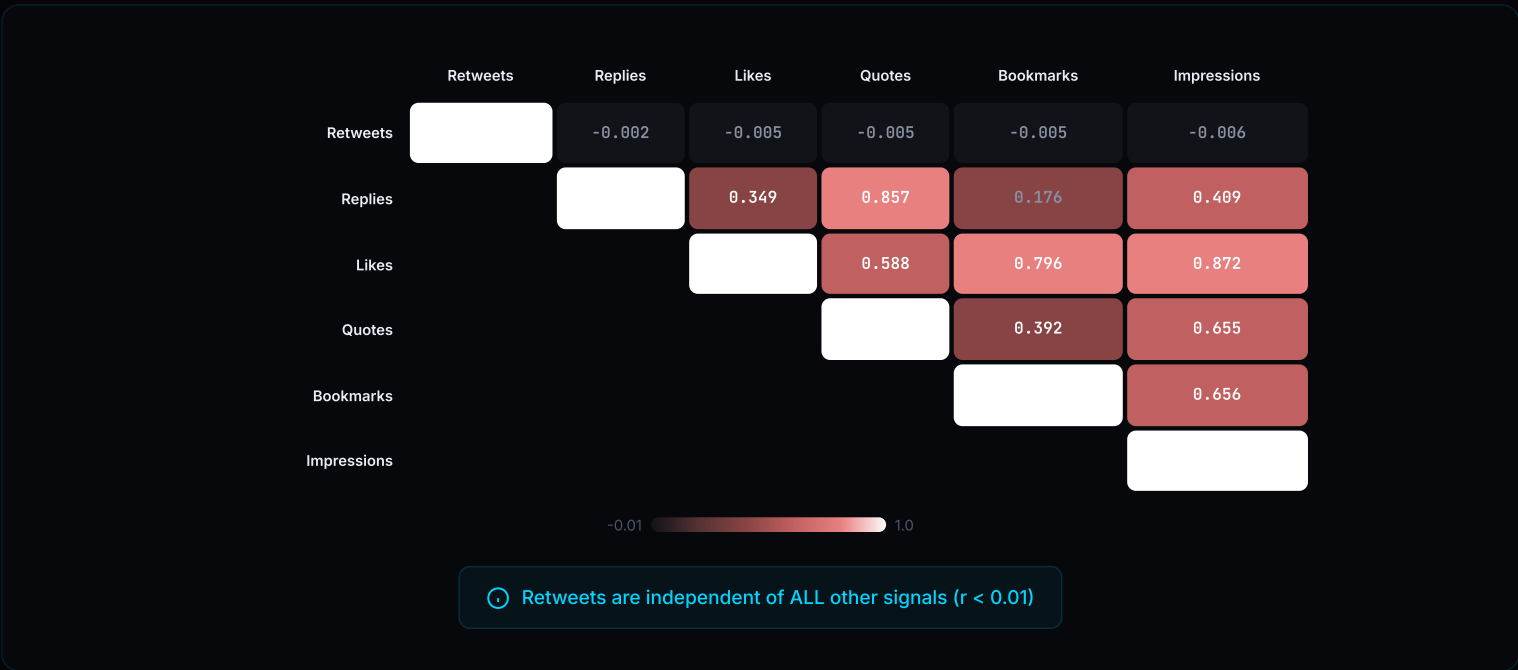

Owned, Event-Borrowed, and Hijacked Conversations
